## PRICING INFORMATION

The following rates on Nuplex Coatings and Floorings are offered as a guide **only** to provide specifiers, engineers, quantity surveyors and builders with sufficient price information for the preparation of budget estimates. In using these rates, it must be appreciated that **these are not firm prices and Nuplex Contractors will not be bound by them.** Trained personnel are available nationwide to measure off plans and provide firm quotations on all Nuplex products and this service is available in the early design stage for budget purposes or at the final tender stage without obligation on the part of the client. These rates include general preparation of the surface, masking, sealing, application and cleaning up.

Such items as waterblasting, sandblasting, plastering and other major preparatory or remedial work together with scaffolding in excess of normal requirements would be additional charges.

**Areas less than 50m<sup>2</sup>** will be very significantly different (higher) than the numbers below.
